

Electrical Parts for Forklifts

Forklift Electrical Parts - Lift trucks may be purposely labeled to be utilized in unsafe places. A marked lift truck denotes the design has met the least requirements of ANSI/UL 558 meant for engine powered forklifts or ANSI/UL 583 used for electric lift trucks for the type of label put.

The application for labels intended for lift forklifts may be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Ask your local insurance carrier and Fire Marshall for more info regarding the approved uses of industrial powered trucks in your application.

If the certain lift truck satisfies the outlined standards, labels can be attached. A labeled lift truck will show the type of designation placed on the nameplate and will have a properly corresponding label put.
