

Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly founded on a one hundred year tradition of quality and service. They specialize in various modules, integrated systems and parts to original machinery manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor values the requirements of all their clients to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused individuals. These top-caliber individuals could rapidly get used to to changing environments and freely demonstrate the level of performance and commitment required to be able to attain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides all of their staff various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, braking and suspension systems used for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the needs of all their worldwide engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 nations.

They have their supplier network which is specifically located so as to support the development of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every part of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean techniques.
