

Rockwell Part

Rockwell Parts - AxleTech International is a leading supplier in the world of specialty vehicle drive-train systems and parts along with off highway vehicles. The company prides itself on being its clients' preferred supplier. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere which encourages the utmost integrity with empowered teamwork, together with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious business and providing a safe atmosphere for their workers to work in. Furthermore, they have applied many programs within the corporation to be able to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with whichever questions or comments, since they are glad to promote and share this policy with a greater knowledge of their efforts. They are very devoted to improving and preserving the natural world. AxleTech has an EHS program that not only protects the natural environment but which also actively protects their neighbors and staff too.

AxleTech specializes in the designing and manufacture of planetary axles for both military and commercial applications, that may comprise anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider also. AxleTech particularly designs axles to meet specific application demands. They have more than 1000 various axle specs within their present offering. With over one hundred years of history and knowledge, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The business is well known in several military and commercial applications. They offer complete axle assemblies utilized for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have extra details which can be seen in the "ISAS" product collection.
