

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive models of lift trucks, with components covering more than 120,000 specific components for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your parts requirements supplied by Clark Totalift.

Clark features a phenomenal Parts Distribution team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark has a unrelenting objective to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has preferred the extremely economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and use of resources. This system was established to acknowledge the most efficient method of manufacturing plant management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing expenses. The contemporary value engineering agenda combines innovative product development and provides improved customer support and service within the industry.
